

ON-CALL AND RETAINER-BASED CONSULTING SERVICES (VIRTUAL)

Since Resolute's conception, we have served as trusted advisors and strategic support for business and non-profit leaders. Our consulting services are used in many ways:

- Thinking partnership - supporting leadership in processing and filtering information, crafting strategy, building clarity, and developing solutions.
- Driving accountability - when everything is a priority, it is easy for nothing to get done. External accountability can drive results and focus.
- Project based support - content marketing strategy, content generation and project management, marketing and business development initiatives, operational organization, and process development.
- Strategic planning - from research and strategic plan development, through scenario modeling, to implementation and support in strategic doing.
- Research and surveys - including climate and benchmarking surveys, industry research, client perception studies, and competitor analyses.

Investment levels:

Retainers begin at \$1,500/month with a three month minimum commitment.

Retainers provide services at the lowest cost/hour. Recommended for thinking partnership / accountability engagements.

For guidance, base package includes:

- Two (2) 30-minute virtual meetings
- Approx five (5) hours of consulting support

Project based engagements are priced to scope.

Detailed, scope-based proposals allow certainty of pricing and schedule.

On-Call consulting is offered at hourly rates.

Recommended for easy delivery of occasional services under an existing contract.
